

APPENDIX

NIAMS/NIAMS Information Clearinghouse Exhibit Report

Meeting: American Academy of Physician Assistants	Number of Attendees: 7,000
Location: Anaheim, CA Staff:	Dates: May 27-30, 2001

Comments/Problems

This is a great conference and audience for dissemination of our patient education materials. The physician assistants were thrilled with our materials, interested in a broad range of subjects, and took most of the many publications we sent. There were many physician assistants from an orthopedic office. Many attendees requested Spanish publications. The new booklet format for the Q&As was very popular and preferred over the old one.

Suggestions for Future Meetings

Send two folder racks next year.

List of Publications Sent and Returned

Quantity Sent	Item No.	Title	Quantity Returned
	AR-175	A Guide To Making Print Documents	
50	AR-80 QA	Acne	0
	AR-80 L	Acne—large print	
150	AR-103 QA	Arthritis and Exercise	9
